Summary

Results-driven Backend & DevOps Engineer with 5+ years of experience designing scalable SaaS systems, secure APIs, and cloud-native infrastructures. Proficient in PHP (Symfony, Laravel), Python (FastAPI), and DevOps workflows across AWS, GCP, and Azure. Known for delivering production-ready systems, optimizing database performance, and collaborating cross-functionally to ship business-driven software.

Key Skills

Backend & SaaS: PHP (Symfony, Laravel, Yii), Python (FastAPI), Node.js, REST APIs, OAuth2, Swagger/OpenAPI
Cloud & DevOps: AWS (Lambda, S3, EC2, SQS), GCP, Azure, Docker, Kubernetes, Terraform, GitHub Actions
Databases: MySQL, PostgreSQL, Redis | Monitoring: Datadog, Prometheus, Grafana
Other: CI/CD, Agile, Git, JSON Schema, TypeScript (basic), Security best practices

Experience

- Freelance DevOps & Backend SaaS Developer | Remote | Jan 2020 – Present

- Built & deployed multi-tenant SaaS platforms with secure REST APIs in PHP (Laravel/Yii) and FastAPI.
- Integrated OpenAPI & OAuth2 flows with Stripe and SSO providers.
- Used MySQL optimization techniques for analytics-heavy workloads.
- Deployed microservices using Docker, Kubernetes, and automated CI/CD on AWS & GCP.
- Designed serverless backend components with AWS Lambda & SQS.

- IT Specialist | Almajed for Oud | Riyadh | Feb 2025 – Present

- Developed backend services and internal APIs; supported infrastructure improvements.
- Ensured secure deployments using IaC and GitHub CI/CD.

- IT Operations Officer | MESC | Riyadh | Sep 2024 – Feb 2025

- Monitored enterprise systems and enforced cloud and data protection protocols.

- IT Operations Associate | Lailai Almzaj | Riyadh | Oct 2022 – Sep 2024

- Maintained server performance and resolved technical issues across business units.

Education & Certifications

BSc in Information Technology, Saudi Electronic University (Expected 2024)
